TWINS APPARELS

Precision in every thread.

A full-scale bottomwear manufacturing partner for brands, retailers and private-label buyers.

COMPANY PROFILE

2026

CUT. STITCH. FINISH.

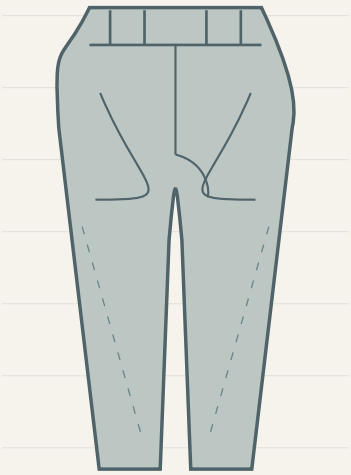

35K+	150+	120
GARMENTS / MONTH	SKILLED STAFF	MACHINES ON FLOOR

01 / ABOUT THE COMPANY

Made for brands. Built for consistency.

Twins Apparels is a bottomwear manufacturing unit based in Bhilwara, Rajasthan. We produce ready-to-wear garments for brands and private-label buyers, with cutting, fusing, stitching, finishing, pressing and packing carried out under one roof.

Our approach combines established garment blocks with buyer-supplied tech packs, disciplined floor operations and specification-based quality checks.

BOTTOMWEAR SPECIALIST

OUR MANUFACTURING MODEL

01

End-to-end control

Fabric inspection through finished, packed garments.

02

Fit-led execution

Existing graded blocks or buyer-specific specifications.

03

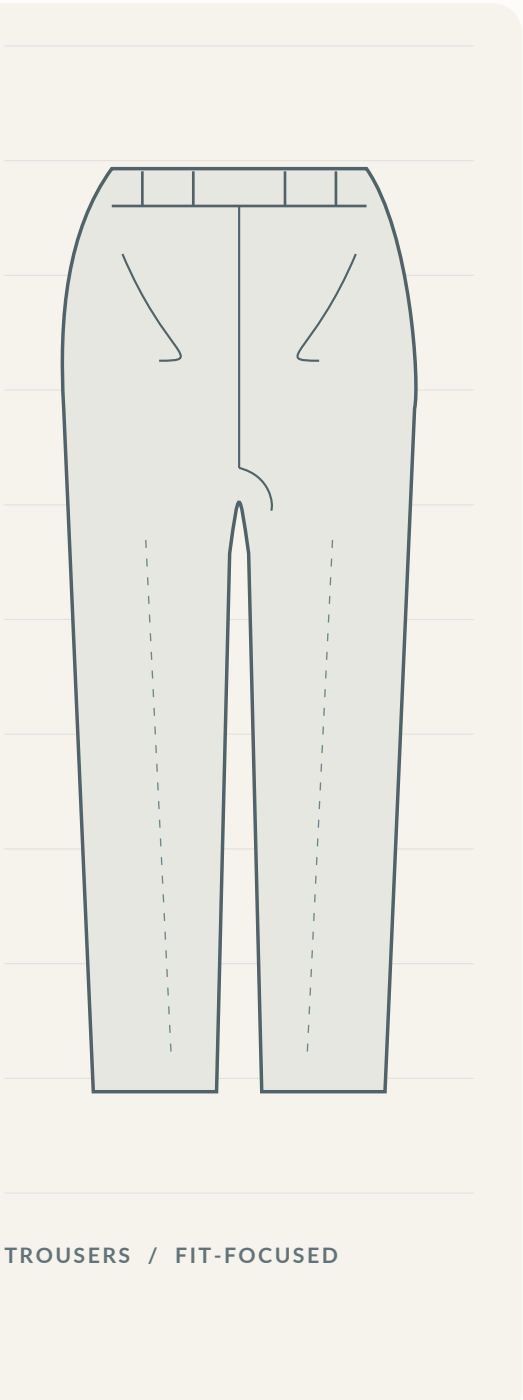

Production at scale

A 150+ member workforce and a 120-machine floor.

02 / WHAT WE MANUFACTURE

Menswear bottomwear

Our men's range centres on formal tailoring, stretch constructions, travel-ready utility styles and lounge essentials.

TROUSERS / FIT-FOCUSED

01 FORMAL & SMART

- Loose Fit
- Baggy Fit
- Wide Leg
- Straight

27 established fits across 4 categories. Buyer-specific fit and trim requirements can be discussed from a tech pack.

03 / OUR WORKFLOW

From fabric to carton.

A defined, six-stage production route keeps fabric, operations and specifications aligned from intake to dispatch.

01

FABRIC INSPECTION

Rolls are inspected for shade, width and defects before cutting.

SHADE BANDS / SHRINKAGE

02

CUTTING & FUSING

Markers are planned for consumption efficiency, then fabric is spread and cut.

CUTTING / FUSING

03

STITCHING

Operations run across single needle, overlock, Kansai and bartack stations.

FIXED OPERATION STATIONS

04

FINISHING

Button, eyelet, loop, hem and thread-finishing operations complete the construction.

BUTTON / EYELET / HEM

05

PRESSING & QC

Steam pressing and garment checks against the approved specification.

MEASUREMENT / APPEARANCE

06

PACKING & DISPATCH

Garments are folded, tagged and packed to buyer packing instructions.

RATIO PACK / CARTON MARK

ONE ROOF / CUTTING TO PACKED GARMENT

04 / ON THE FACTORY FLOOR

05 / ENQUIRY GUIDELINES

A clear brief. An accurate quotation.

For a new style or repeat production enquiry, these details help us assess the garment, sampling requirements and commercial scope.

01 STYLE / REFERENCE

Garment reference photo, style number or technical pack.

02 FABRIC DETAILS

Composition, construction, GSM and any nominated material.

03 ORDER QUANTITIES

Target pieces by style, colour, size range and size ratio.

04 TRIMS & BRANDING

Buttons, zippers, labels, tags and individual packing needs.

05 QUALITY STANDARD

Measurement chart, tolerances and any testing instructions.

06 DELIVERY REQUIREMENT

Desired delivery date, destination and carton markings.

Costing, sampling and lead time are reviewed against each buyer's complete requirement.
